Calling all Students, Data Scientists, Data Analysts, Developers, Data Geeks, Math Aficionados…

Come Join Us!

Orange County R Users Group

We explore and discuss the R statistical programming language and how it's being used in data applications such as:

- Data analysis
- Data visualization
- Data mining
- Machine Learning
- Predictive analytics & modeling
- and beyond…

People of all levels are welcome to attend, from those just getting started with R and data analysis to experts using R everyday.

Monthly meetings in Orange County

The Orange County R Users Group (OCRUG) is dedicated to bringing together R users in the the Orange County area to network and to share knowledge and information about R and all things related to data. All experience levels are welcome. We foster a positive, inclusive environment for learning and sharing.

Past meeting discussion topics include:

- *Use of R in finance*
- *Introduction to ggplot2*
- *Machine learning with R*
- *Adopting R in Pharma & Biotech*
- *Sports predictive analytics*
- *Image analysis*
- *R fundamentals*
- *Decision trees with R*

For more information and to join the group, visit our Meet-up page:
